

FOR IMMEDIATE RELEASE

CHAMPION SERIES – 16” HD
Part No. M162K

Maradyne introduces its Champion Series line of universal high performance fans. Ranging in size from 16” all the way down to 7”, the champion series fans are very low in profile ranging from 2.48” thick on 130w motor models up to a slim 3.19” on 225w motor models. The Champion Series M162K pictured above is the flagship fan of the Maradyne line and is used by many in the racing industry including 4 Busch (Nationwide) teams and 1 Nextel (Sprint) cup team. All Champion series fans are made from rugged glass filled nylon and the motors are sealed to be dust and water proof making them ideal for harsh off road applications as well as dirt and pavement applications. All Champion series fans include mounting feet and locking mating pigtail connector for easy disconnect when trouble shooting electrical problems. For more information and dimensional drawings, visit: www.maradyne.com or contact Maradyne High Performance Fans, 4540 W. 160th Street, Cleveland, OH 44135. 1-800-435-7953.
