

FOR IMMEDIATE RELEASE

MACH TWO - NO FLANGE
PART NO. MM22K

MACH TWO - TOP & BOTTOM FLANGES
PART NO. MM22KT

MACH TWO – SIDE FLANGES
PART NO. MM22KS

Maradyne introduces it's Mach Two series of dual 11" high performance fans for big block applications. Utilizing two powerful 225 watt motors and wide paddle blade designs for maximum air lift, the Mach Two has a slim profile of only 3.80". It measures 23.5" across by 15.75" tall and fits many of the 24" wide aftermarket radiators including most Chevy Tri-5 applications. Maradyne also offers innovative mounting flanges on its MM22KS side flanged model and the MM22KT top/bottom flanged option. This allows the installer to easily drill holes for bolting the flanges to the U-channels of the radiator thus eliminating the need for special bracketry. For more information and dimensional drawings, visit: www.maradyne.com or contact Maradyne High Performance Fans, 4540 W. 160th Street, Cleveland, OH 44135. 1-800-403-7953.
